

CARL LOUISE CENA

Quality Engineer | Test Automation | AI-Enabled QE

Cebu City, Philippines | 09773227142 | caarlccena@gmail.com | carlcena.netlify.app |

PROFESSIONAL SUMMARY

Results-driven Quality Engineer with 2+ years of hands-on experience in manual testing, regression testing, test automation, and defect management across enterprise-scale Agile projects. Proven expertise in Selenium WebDriver (Java), Cypress (JavaScript), and Playwright for end-to-end web application testing and validation. Adept at leveraging Azure DevOps for defect lifecycle management and collaborating cross-functionally with developers, business analysts, and stakeholders to deliver high-quality releases. Passionate about AI-enabled QA, automation frameworks, and continuous learning, with a strong foundation in Computer Engineering. Microsoft Azure (AZ-900), Power Platform (PL-900), and Tricentis Tosca Certified.

WHAT I BRING TO YOUR TEAM

- **Hybrid Skillset:** Strong in both manual QA fundamentals and modern automation frameworks (Selenium, Cypress, Playwright).
- **AI-Forward Mindset:** Actively integrates generative AI tools into testing workflows to boost productivity and coverage.
- **Cross-Functional Collaborator:** Trusted partner across dev, BA, and QA teams in fast-paced Agile environments.
- **Continuous Learner:** Consistently upskilling in automation, performance testing, and the SDET career path.
- **Prompt-Driven Productivity:** Skilled at crafting effective prompts to generate test scenarios, edge cases, locators, and code reviews.

CORE COMPETENCIES

- **Quality Assurance & Testing:** Manual Testing, Regression Testing, Functional Testing, Release Validation, Shakeout Testing, Smoke Testing, Test Case Design, Test Execution, Exploratory Testing
- **Test Automation:** Selenium WebDriver (Java), Cypress (JavaScript), Playwright, TestNG, WebDriverIO, Tricentis Tosca, Maven
- **Defect Management:** Azure DevOps, Jira, Bug Reporting, Root Cause Analysis, Defect Triage
- **Programming & Tools:** Java, JavaScript, HTML, CSS, Git, GitHub, Visual Studio Code
- **Methodologies:** Agile, Scrum, SDLC, STLC, Cross-Team Collaboration
- **Specialized Testing:** AEM (Adobe Experience Manager) Testing, Web Application Testing, API Validation, UI Validation
- **AI-Enabled QA:** GitHub Copilot, Microsoft 365 Copilot, OpenAI Codex, Cursor, Claude Code
- **Soft Skills:** Communication, Problem-Solving, Attention to Detail, Documentation, Continuous Learning, Adaptability

PROFESSIONAL EXPERIENCE

Quality Engineering Associate

Accenture | Cebu City, Philippines | 2024 – Present

- Execute manual and regression testing for web applications and internal tools within the CIO-Adobe project, ensuring high-quality releases across different environments.
- Design, execute, and maintain comprehensive test scenarios, test cases, and validation activities for release cycles, contributing to consistent on-time delivery of QA milestones.
- Log, track, and validate defects in Azure DevOps with detailed reproduction steps, collaborating with developers and stakeholders to accelerate resolution and ensure traceability.
- Develop and maintain automated test scripts using Selenium WebDriver (Java), Cypress (JavaScript), and Playwright, improving regression coverage and reducing manual effort.
- Participate in release regression, shakeout testing, release orchestration and cross-team QA support, contributing to multi-team initiatives and knowledge-sharing sessions.
- Support AI enablement initiatives by leveraging GitHub Copilot and M365 Copilot to accelerate test script creation, defect documentation, and QA workflows.
- Provide knowledge transfer (KT) and onboarding support to peers on Scrum practices, automation tooling, and manual performance testing.
- Built automated regression test suites for AEM Tools (Language Rollout, Profile Tools, Lock/Unlock Tool, Content Package workflows) using Selenium WebDriver (Java), Maven – reducing manual regression effort.
- Contributed to automation script reviews, debugging failed test runs, and improving overall test coverage across AEM Tools.

PhilHealth Claims Analyst

Allegiant Regional Care Hospitals Inc. | Philippines | 2023 – 2024

- Processed PhilHealth-related concerns including deductions, reimbursements, and patient payment transactions with high accuracy.
- Generated reports on claims processing, membership statistics, and financial transactions to support hospital operations and audits.
- Strengthened communication, customer service, and stakeholder management skills through direct patient and provider interactions.

KEY PROJECTS & CONTRIBUTIONS

- **Adobe Digital Assets & Web Content:** Contributed to regression coverage, defect triage, and cross-team testing on a large-scale Adobe Experience Manager (AEM) platform serving enterprise stakeholders.
- **Automation Framework Development:** Built and maintained Selenium (Java) automation projects with Maven and TestNG; expanded into Cypress and Playwright frameworks for modern web automation.

- **Cross-Team QA Support:** Supported partner teams (e.g., Trados manual performance testing) and contributed to KT/Scrum onboarding for new team members.
- **AI-Driven QA Innovation:** Early adopter of generative AI tools (GitHub Copilot, M365 Copilot) for accelerating test design, automation scripting, and defect reporting.
- **VRD – Visual Recognition & Data Annotation Project:** Performed high-quality data annotation and validation to support AI/ML visual recognition model training, ensuring accuracy, consistency, and adherence to labeling standards while collaborating with cross-functional AI/ML and QA teams to refine annotation guidelines and improve dataset quality.

EDUCATION

Bachelor of Science in Computer Engineering

University of Cebu – Banilad | 2019 – 2023

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Power Platform Fundamentals (PL-900)
- Tricentis Tosca Automated Testing Certification
